CEO Stan Little: New Mobile App, New Destinations, and a New Vehicle!

Stan Little: Southern Airways/Mokulele Chairman and CEO

Just as summer is arriving, it's a time of new beginnings at here at Southern. Recently, we launched our first mobile app (which our programmers wrote from the first line of code) in order to streamline the customer experience for our passengers. This process took a full year, but we designed it to be the best app in the business, so the wait was worth it! With it, you can book, cancel, change, or just check the status of flights. Be sure to visit the Apple or Google Store to download either the Southern or Mokulele version.

Later this year, we'll be rolling out our Loyalty Program which will allow our customers to earn status and benefits based on the amount of flying they do on all our brands. Our goal is to take care of all our passengers better than anyone in the business, but we especially want to show our appreciation for those of you who fly with us monthly, weekly, or even daily!

We've also announced two new cities since our last issue of Cloud Nine: Pueblo, Colorado and Burlington, Iowa. While we've been serving Colorado for almost two years now, this is Southern's first foray into Iowa, and we couldn't be happier to continue growing both our Chicago and St. Louis hubs from this great new city in America's heartland. With 2024 being a Presidential election year, we expect to be a gateway to the campaign trail in the Hawkeye State.

LATER THIS YEAR, WE'LL BE ROLLING OUT OUR LOYALTY PROGRAM WHICH WILL ALLOW OUR CUSTOMERS TO EARN STATUS AND BENEFITS BASED ON THE AMOUNT OF FLYING THEY DO ON ALL OUR BRANDS. OUR GOAL IS TO TAKE CARE OF ALL OUR PASSENGERS BETTER THAN ANYONE IN THE BUSINESS, BUT WE ESPECIALLY WANT TO SHOW OUR APPRECIATION FOR THOSE OF YOU WHO FLY WITH US MONTHLY, WEEKLY, OR EVEN DAILY!

In April, I had the privilege of being one of the speakers for the unveiling of the REGENT Seaglider at their facilities near Newport, Rhode Island. At that time, and with airline executives present from around the world, it was announced that Southern/Mokulele has been selected to be the first company in the world to take delivery of these remarkable new vehicles.

If you've never heard of a Seaglider, I recommend you do a simple Google search online. It's a new vehicle which utilizes existing technology called "wing in ground effect." That means that it takes off and lands on the water but flies in the air just over the waves. Moreover, it is fully electric and travels just as fast as Southern's current Caravans!

Southern Airways is committed to the future of electric aviation, both on our existing fleet and on new vehicles like the Seaglider. With the help of our technology partners, we're someday going to be the "greenest" airline in America, and this is another example of that commitment. We want you to be able to fly as frequently as you want and never have to consider your carbon footprint. That day is coming sooner than most people think, and our team is proud to be leading the industry in that direction.

Thanks for flying Southern and Mokulele.

Onward and upward,

Stan Little

Things to Stop and Do On The Road To Hana

If you decide to take a Mokulele Airlines flight to Hana and travel the famous Road To Hana, take your time. First of all slow down for the many locals traveling the road, because the 52-mile stretch of highway is mostly one-lane and very winding. And, secondly to just enjoy the beauty.

Here are some things to stop and do when traveling the Hana Highway:

MAUI GARDEN OF EDEN

The Garden of Eden is a beautiful arboretum that was created by Alan Bradbury, Maui's first ISA-certified arborist.

STOP FOR THE FALLS

Not all of the waterfalls and pools are open to the public, but, we counted at least 7 stops along the way that are. Some are quite easy to reach, and some are for the more experienced hiker and further off the road.

HAMO A BEACH

Located about 1/2 mile from Hana Town, this beach has been listed multiple years as one of the Best Beaches in the World by *Conde Nast*.

Hula, Food and Wine Highlight 2023 Hawai'i Summer Events

Hawai'i has 2 great events this summer and Mokulele Airlines wants to take you to both!

KAPALUA WINE AND FOOD FESTIVAL

The Kapalua Wine and Food Festival is held June 8-11, 2023 at the Kapalua Resort on Maui.

This 42nd Annual event features over 30 wineries with tastings, a Gala, and of course dinner pairings.

PRINCE LOT HULA FESTIVAL

Celebrating its 46th anniversary this year, the Prince Lot Hula Festival is the largest non-competitive hula festival in Hawaii. The Festival will be held the weekend of July 15, 2023.

The Prince Lot Hula Festival was always intended to be a free gift of hula to the community. Dancers perform both kahiko (ancient) and auana (modern) styles of hula that features dancers of all ages and skill levels. Without the restrictions of competition, kumu hula are free to create whatever dances inspire them.

During his reign as Kamehameha V from 1863 to 1872, Prince Lot was known as a champion of Hawaiian culture and traditions. This included the revival of hula, which had been banned by a previous leader due to religious beliefs.

KEEPING IT COOL OUTDOORS IN CLEARFIELD COUNTY, PA

Summer can be just downright muggy and miserable for some places. But, Clearfield County finds average temperatures in the low 80s during the summer with moderate humidity.

Why? Simply put, it's mountainous terrain keeps things a bit more comfy in the summer months, and that summer comfort offers plenty for those that like to be outdoors without the sweat.

Mid-June is an exceptional time to see the Mountain Laurel in full bloom along the trails in Quehanna and at Wopsononock. Animal life is teeming as well; hibernation season is over, and mothers are teaching their young how to navigate and safely explore the region's hills and valleys.

Clearfield County has miles of largely navigable streams and lakes; you can drop your anchor and patiently wait, put on the waders and get some quality fly fishing in, or simply have a seat at streamside and plop a baby night-crawler into the water.

Kids will enjoy dropping their line off of several bridges along the West Bank of the Susquehanna River. Hog Back Bridge, RT 879, is located between Curwensville and Clearfield or you can travel further down the river and stop at the Hyde Bridge, Market Street Bridge or the Nichols Street Bridge.

With over 30 Hiking trails with various degrees of difficulty, hiking in Clearfield County is for everyone during the Summer months.

102 Miles of the West Branch Susquehanna River is located in the boundaries of Clearfield County. Numerous lakes and rivers also give canoers and kayakers a variety of challenges across Clearfield County. Whether it's a nice easy paddle or whitewaters you are looking for, cooling off in the summer couldn't be easier!

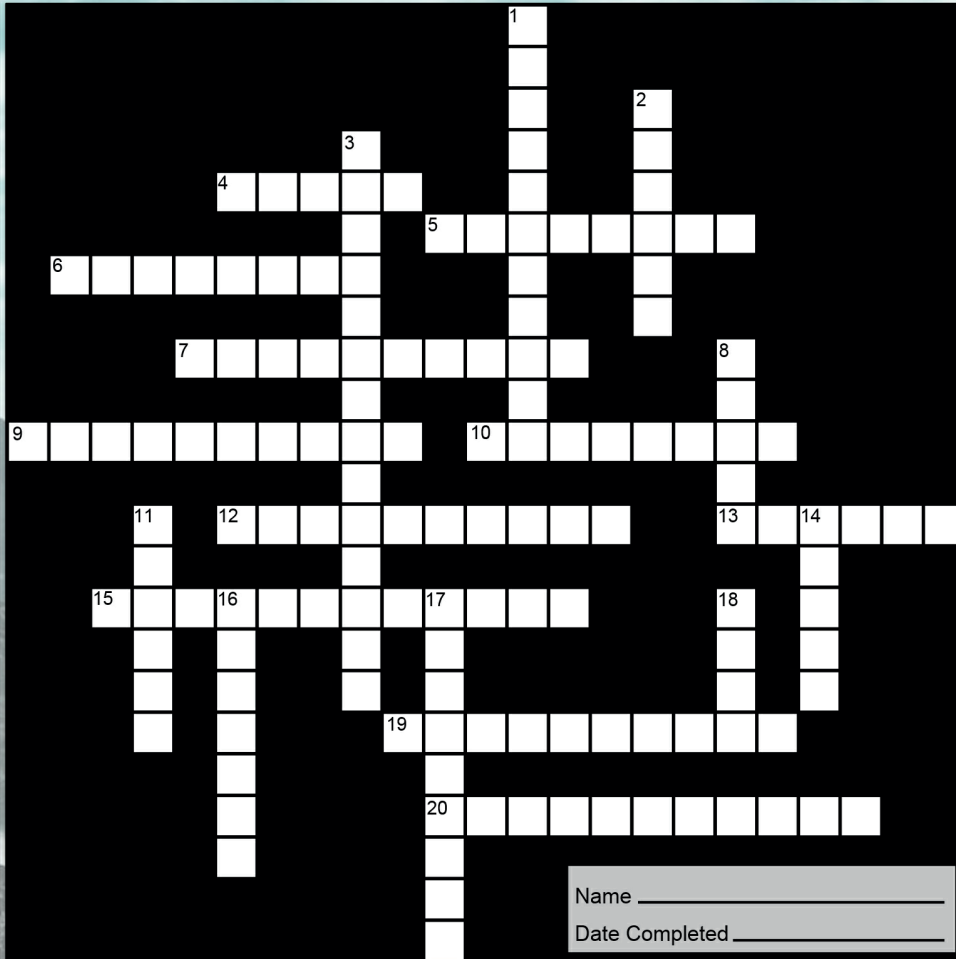

Visit Clearfield County offers five trails for your next geocaching adventure. Use their CCGT passport to collect 20 codes found within each cache on any of our trails and redeem it for a collectible geocoin. If you complete all five CCGT trails and have your passport validated, you will receive a trackable geocoin. Take a step back in time on the Forgotten Clearfield County Geotrail or pay tribute to those who have served and currently serve on our Hometown Heroes Geotrail. The Waterways Geotrail reveals a new fishing spot and hidden streams that feed the West Branch of the Susquehanna River. If you're looking to explore the wilderness, try the Parks and Recreation Geotrail, which is sure to give you a breath of fresh air. The oldest geotrail, Cemeteries, leads geocachers to large, small, and hidden plots.

Southwest

Show Low, AZ: The Perfect Place For Summer In The Southwest

So, we all know Phoenix can be pretty warm during the summer. And while it's a "dry heat", it's still toasty. But, if you grab a Southern Airways flight to Show Low, you can find some amazing relief.

How Show Low Got Their Name

Well, it is the west and as legend goes the name was the result of a marathon poker game between Corydon E. Cooley and Marion Clark. The two men were equal partners in a 100,000-acre ranch; however, the partners determined that there was not enough room for both of them in their settlement, and agreed to settle the issue over a "Loser Leaves Town" game of "Seven Up".

Apparently, this game also went on with no end in sight. So, Clark said, "If you can show low, you win." In response, Cooley turned up the two(deuce) of clubs (the lowest possible card) and replied, "Show low it is." The town's main street is named "Deuce of Clubs" in remembrance.

Great Temperatures

Now, Show Low is a gem of a town located in the White Mountains, especially in the summer. With highs averaging in the low to mid-80s before plummeting to the mid-40s and sometimes 30s, it is the perfect place to escape the heat.

From camping to golf and the Show Low Days from June 9-11, 2023, there is always things to cool down outdoors in Show Low, AZ.

Cool LA Treats To Beat The Heat

Monty's Good Burger

Wanna good shake? Or looking for a great vegan shake? Monty's over on South Western Avenue is the spot with a classic retro vibe. They also specialize in diner classics using plant-based foods.

Summer Grill and Smoker Tips

See All The Smoker Tips Here!

We have compiled 25 tips for those who love to grill, smoke or both.

1. Use metal utensils, **NOT** Plastic
2. Oil your grate- some say before you light. Personally, I like to get my grate hot and wire brush (or get half an onion and use tongs and clean your grate that way!) first to get it good and clean. Then, I take a paper towel soaked in vegetable or olive oil in my tongs and **LIGHTLY** rub oil on the grate.
3. If you have to use lighter fluid, wait at least 10 minutes. I suggest buying a chimney starter. It burns cleaner and gets the coals hotter quicker.
4. Cover it- **DON'T** drown it! See that water bottle you brought out for flare-ups? Use it to spray down the kids. If you have flare-ups just cover your grill until they die down.
5. **DO NOT** Constantly flip your burger.
6. Cook your chicken over low heat, plan on taking your time
7. For best results, cook pork and beef on high heat and ideally only flip 2-4 times.
8. Some folks like to cut their veggies and wrap them in foil. About 5 minutes after I light the coals, I place whole onions (skin on) and corn on the cob (husk on) directly on the grill over the hot spot to start. Turning once every 10 minutes for the first 20, then if you need room for meat, adjust. You will get a burnt look outside. But, the veggies are cooking in their own juices. Once soft to the touch they are done. Open carefully!
9. Chicken and Pork- Keep that sauce rolling! Especially chicken! About 5 minutes before you feel your chicken is done, put an extra sauce slop over it to give it a nice glaze.
10. Let it sit- Take your meat off the grill and leave it alone for a couple of minutes. Cutting into it as soon as you pull it off releases all those juices and flavors you worked so hard to maintain.
11. Hot Dogs- I like a good, crisp hot dog- You know the kind that is crispy and charred on the outside, and then juicy, burn the roof of your mouth good on the inside. Start your dogs on the "cool side" of the grill. Flipping once for 2 minutes. Then place it over the hottest part of the grill. Keep rolling until they reach that desired level of done-ness.
